What in the world were we thinking? By exploring the history of four "cultures" so deeply embedded in Western history that we rarely see their instrumental role in politics, religion, education, and the arts, this timely book provides a broad framework for addressing these questions in a fresh way.

Raising Cane in the 'Glades-Gail M. Hollander 2009-11-15 Over the last century, the Everglades underwent a metaphorical and ecological transition from impenetrable swamp to endangered wetland. At the heart of this transformation lies the Florida sugar industry, which by the 1990s was at the center of the political storm over the multi-billion dollar ecological “restoration” of the Everglades. Raising Cane in the ‘Glades is the first study to situate the environmental transformation of the Everglades within the economic and historical geography of global sugar production and trade. Using, among other sources, interviews, government and corporate documents, and recently declassified U.S. State Department memoranda, Gail M. Hollander demonstrates that the development of Florida’s sugar region was the outcome of pitched battles reaching the highest political offices in the U.S. and in countries around the world, especially Cuba—which emerges in her narrative as a model, a competitor, and the regional “other” to Florida’s “self.” Spanning the period from the age of empire to the era of globalization, the book shows how the “sugar question”—a label nineteenth-century economists coined for intense international debates on sugar production and trade—emerges repeatedly in new guises. Hollander uses the sugar question as a thread to stitch together past and present, local and global, in explaining Everglades transformation.

Somewhere Safe with Somebody Good-Jan Karon 2015-08-04 #1 New York Times bestselling author Jan Karon welcomes you back home to Mitford in this inspirational novel that “hits the sweet spot at the intersection of your heart and your funny bone” (USA Today). After five hectic years of retirement from Lord’s Chapel, Father Tim Kavanagh returns with his wife, Cynthia, from the land of his Irish ancestors. While he’s glad to be at home in Mitford, something is definitely missing from his life: a pulpit. But when he’s offered one, he decides he doesn’t want it. For years, he believed he had a few answers. Now he has questions. How can he possibly help Dooley’s younger brother, Sammy, make it through the fallout of a disastrous childhood? Could doing a good deed for the town bookstore be the best thing for his befuddled spirit? And who was riding through town in a limo? Not Edith Mallory. Then an editorial in the weekly Muse poses a question that sets the whole town looking for answers: Does Mitford still take care of its own?

How to Achieve 27001 Certification-Sigurjon Thor Arnason 2007-11-28 The security criteria of the International Standards Organization (ISO) provides an excellent foundation for identifying and addressing business risks through a disciplined security management process. Using security standards ISO 17799 and ISO 27001 as a basis, How to Achieve 27001 Certification: An Example of Applied Compliance Management helps an organization align its security and organizational goals so it can generate effective security, compliance, and management programs. The authors offer insight from their own experiences, providing questions and answers to determine an organization’s information security strengths and weaknesses with respect to the standard. They also present step-by-step information to help an organization plan an implementation, as well as prepare for certification and audit. Security is no longer a luxury for an organization, it is a legislative mandate. A formal methodology that helps an organization define and execute an ISMS is essential in order to perform and prove due diligence in upholding stakeholder interests and legislative compliance. Providing a good starting point for novices, as well as finely tuned nuances for seasoned security professionals, this book is an invaluable resource for anyone involved with meeting an organization's security, certification, and compliance needs.

Thinking Planning and Urbanism-Beth Moore Milroy 2010-01-01 When manufacturers and retailers vacate traditional locations, they leave holes in a city’s fabric that signal a shifting urban-industrial terrain. Who should mend these spaces, and how should they approach the problem? Using Toronto’s Dundas Square and surrounding area as a case study, this book meticulously reconstructs the redevelopment process to explore the theories and practices used. It traces the labyrinth of competing interests that can sideline and nearly overwhelm the public planning function. In these circumstances, Moore Milroy concludes that practising planners are marooned by planning theories that begin from the premise that urban space is a social construction and only secondarily a function of technology and aesthetics.

Property Law-Calvin R. Massey 2012 Like the successful constitutional law casebook by this same author, this brand-new property law casebook is distinctive for its use of direct explanation to set the cases in an understandable context. A narrative thread, in introductions and note commentary, reveals the doctrine while promoting inquiry and debate about the policy rationales. Abundant problems test student understanding of the doctrines. Questions frame policy issues and trigger discussion. Provocative cases introduce the societal contingency of the concept of property. And a comprehensive teacher’s manual covers all the questions, notes, and problems, and includes additional hypothetical problems for class discussion.

Zeis' Manual of Plastic Surgery-Eduard Zeis 1988 This is the first English translation, from the original German of 1838, of the first textbook of plastic surgery. Its author, a practicing surgeon who actually introduced the term 'plastic surgery, ' was also the first historian of the field. He included a detailed review of all the literature of his time as well as of the early history of reconstructive operations, extending back to the fifteenth century in Europe, and earlier in India. In addition to its interest as a historical document, this work is an early example of medical specialization, which the author viewed as a progressive force that could be encouraged by collecting relevant background material and presenting it along with practical instruction in a single volume. Medical historians and those with an interest in the early development of plastic surgery will value this fascinating account

Thyme of Death-Susan Wittig Albert 2004-12-01 Eager to open up an herb shop and get closer to the earth, China Bayles leaves behind her career in corporate law and moves to Pecan Springs, Texas, but a close friend’s tragic death could end her happy plans. Reissue.

Alone Together-Theodora Getty Gaston 2013-09-03 It was 1935. Flame-haired Teddy Lynch finished singing "Alone Together" at the swanky nightclub the New Yorker and left the stage to find a charming stranger at her friends' table. It was Jean Paul Getty, enigmatic oil tycoon and America's first billionaire. In her passionate, unflinchingly honest memoir of two outside lives entwined, Theodora "Teddy" Getty Gaston—now one hundred years old—reveals the glamorous yet painful story of her marriage to Getty. As formidable as he was, Teddy was equally strong-minded and flamboyant, and their clutches and clashes threw off sparks. She knew the vulnerable side of Getty—he underwent painful plastic surgery and suffered terrible phobias—that few, if any, saw. A vivid love story, Alone Together is also a fascinating glimpse into the twentieth century from the vantage point of one of its most remarkable couples. This is how the other half lived—dinner dances, satin gowns, beach houses, hotel suites, first-class cabins on the Queen Mary. Teddy's extra-ordinary life story moves from the glittering nightclubs of 1930s New York City to Mussolini's Italy, where she was imprisoned by the fascist regime, to California in the golden postwar years, where Paul and Teddy socialized with movie stars and the elite. But life with one of the world's richest men wasn't all glitz and glamour. Though terrifically charismatic in person, Getty grew more miserly as his wealth increased. Worse, he often left Teddy and their son, Timothy, behind for years at a time while he built planes for the war effort in the 1940s or brokered oil deals—he was the first American to lease mineral rights in Saudi Arabia, which made him, at

his death, the richest man in the world. Even when Timothy was diagnosed with a brain tumor, Getty complained about medical bills and failed to return to the United States to support his wife and son. When Timothy died at age twelve, the marriage was already falling apart. Teddy's unrelenting spirit, her valiant friendship, and her winning lack of vanity transform what could have been a sob story into a nuanced portrait of a brilliant but stubbornly difficult man and the family he loved but left behind, as well as an enchanting view into a bygone era. This was a life lived from the heart.

Just Being Audrey-Margaret Cardillo 2011-11-15 A stunning tribute to one of America's most beloved icons—Audrey Hepburn. This nonfiction picture book is an excellent choice to share during homeschooling, in particular for children ages 6 to 8. It's a fun way to learn to read and as a supplement for activity books for children. From Roman Holiday to Breakfast at Tiffany's, when Audrey Hepburn starred in a movie, she lit up the screen. Her unique sense of fashion, her grace, and, most important, her spirit made her beloved by generations. But her life offscreen was even more luminous. As a little girl growing up in Nazi-occupied Europe, she learned early on that true kindness is the greatest measure of a person—and it was a lesson she embodied as she became one of the first actresses to use her celebrity to shine a light on the impoverished children of the world through her work with UNICEF.
