**Jesus and the Samurai**-Michael Zomber 2009-11-05 By 250 AD, Christianity had spread throughout India and China. Known as the Shining Religion or the Luminous Teaching, it drew adherents from Buddhism and Hinduism who were seeking a faith that taught the possibility of achieving a society founded on love and compassion for their fellow man. The new doctrine reached the island nation of

Japan where it was so well received that Christianity threatened to supplant Buddhism as the dominant religion. By the close of the 16th century Japanese Christians numbered in the millions. Fifty years later Christianity was officially proscribed and Christians faced execution for openly practicing their faith. Jesus and the Samurai tells their fascinating story with facts drawn from ancient and modern sources.

**Obsessive Compulsive Cycling Disorder**-Dave Barter 2016-11-19 Obsessive Compulsive Cycling Disorder is an anthology of thirty articles written by an amateur cyclist over a period of ten years. The collection exhibits the madness that engulfs those who descend into cycling obsession, celebrating the average cyclist living in a world defined by the pros. The writings range from fanciful musings concerning the Tao of singlespeeding to lengthy descriptions of end-to-end rides in Britain and Ireland. Mountain biking, road cycling, classic alpine climbs and all sorts of other cycling events are chronicled along the way. Each is written in a lighthearted style designed to bring the reader into the author's world which is often littered with incident and humour. Within the pages the reader will find a loose ticklist of events to ride, bikes to own and challenges to take on. Each described in the author's own inimitable style. About the Author Dave Barter is a British cyclist. Excellent we've got that out of the way. A non-cycling author of a series of bicycle based reflections would have a hint of incongruity about it. He likes to think of himself as an all rounder having tried many two wheeled disciplines and fallen off most of them. In 2001 he chucked in his job and went cycling. In 2010 he did exactly the same thing again. In between times he's written a few articles about cycling and a few of them have even made it into print. Dave was born in Ely Hospital in 1966 after his Dad raced floodwater to get his Mum to the ward before the river Ouse burst. This explains why he is always in a rush. Dave lives in deepest Wiltshire with his wife Helen and his children Jake and Holly. Wembley the cat used to reside within the family as well but sadly snuffed it a few years ago. Dave's fiscal profession is Information Technology. He writes articles to fund bike parts and is currently attempting to finish a number of books. Once he has read them, he'll turn his attention to his half completed writing projects. Like all good IT practitioners he rarely finishes anything. Obsessive Compulsive Cycling Disorder is the rare exception.

**How to Tune and Modify Automotive Engine Management Systems - All New Edition**-Jeff Hartman 2013-07-21 Understanding fuel injection and engine management systems is the key to

extracting higher performance from today's automobiles in a safe, reliable, and driveable fashion. Drawing on a wealth of knowledge and experience and a background of more than 1,000 magazine articles on the subject, engine-control expert Jeff Hartman explains everything from the basics of fuel injection to the building of complex project cars. Hartman covers the latest developments in fuel-injection and engine management technology applied by both foreign and domestic manufacturers, including popular aftermarket systems. No other book in the market covers the subject of engine management systems from as many angles and as comprehensively as this book. Through his continuous magazine writing, author Jeff Hartman is always up-to-date with the newest fuel-injection and engine management products and systems.
