Servants of the Map: Stories-Andrea Barrett 2003-02-17 "Luminous....Each [story] is rich and independent and beautiful and should draw Barrett many new admirers."—Publishers Weekly, starred review Ranging across two centuries, and from the western Himalaya to an Adirondack village, these wonderfully imagined stories and novellas travel the territories of yearning and awakening, of loss and unexpected discovery. A mapper of the highest mountain peaks realizes his true obsession. A young woman afire with scientific curiosity must come to terms with a romantic fantasy. Brothers and sisters, torn apart at an early age, are beset by dreams of reunion. Throughout, Barrett's most characteristic theme—the happenings in that borderland between science and desire—unfolds in the diverse lives of unforgettable human beings. Although each richly layered tale stands independently, readers of Ship Fever (National Book Award winner) and Barrett's extraordinary novel The Voyage of the Narwhal, will discover subtle links both among these new stories and to characters in the earlier works.

The Late Victorian Gothic-Hilary Grimes 2016-03-03 Examining the automatic writing of the spiritualist séances, discursive technologies like the telegraph and the photograph, various genres and late nineteenth-century mental science, this book shows the failure of writers' attempts to use technology as a way of translating the supernatural at the fin de siècle. Hilary Grimes shows that both new technology and explorations into the ghostly aspects of the mind made agency problematic. When notions of agency are suspended, Grimes argues, authorship itself becomes uncanny. Grimes's study is distinct in both recognizing and crossing strict boundaries to suggest that Gothic literature itself resists categorization, not only between literary periods, but also between genres. Treating a wide range of authors - Henry James, Rudyard Kipling, Arthur Conan Doyle, George Du Maurier, Vernon Lee, Mary Louisa Molesworth, Sarah Grand, and George Paston - Grimes shows how fin-de-siècle works negotiate themes associated with the Victorian and Modernist periods such as psychical research, mass marketing, and new technologies. With particular attention to texts that are not placed within the Gothic genre, but which nevertheless conceal Gothic themes, The Late Victorian Gothic demonstrates that the end of the nineteenth century produced a Gothicism specific to the period.

Common Core Skills & Strategies for Reading Level 6-Saddleback Educational Publishing 2013-09-01 The Common Core State Standards (CCSS) provide a consistent, clear understanding of what students are expected to learn. Aligning each lesson in these six Common Core titles to the CCSS ensures that students are being taught and assessed on what they are expected to learn and know. The alignment helps educators think critically about their curriculum, instruction, and assessments as they work to ensure that their students meet the rigorous new standards. Beginning with foundational skills, the activities teach students what they need to learn. The alignments offer a progressive development of reading comprehension skills so that students advancing through the levels

are able to gain more from whatever they read. Each title includes a table of contents, a CCSS alignment chart, 130 reproducible lessons individually aligned to the CCSS (each lesson contains a discrete alignment at the bottom of the page), a scope and sequence chart, and an answer key.

Determined to increase the breadth of his rule, the king will use any means necessary to gain control of France—including manipulating his own son, Edward, Prince of Wales. Catching Up Or Leading the Way-Yong Zhao 2009 At a time when globalization and technology are dramatically altering the world we live in, is education reform in the United States headed down the right path? Are schools emphasizing the knowledge and skills that students need in a global society--or are they actually undermining their strengths by overemphasizing high-stakes testing and standardization? Are education systems in China and other countries really as superior as some people claim? These and other questions are at the heart of author Yong Zhao's thoughtful and

informative book. Born and raised in China and now a distinguished professor at Michigan State University, Zhao bases many of his observations on firsthand experience as a student in China and as a parent of children attending school in the United States. His unique perspective leads him to conclude that "American education is at a crossroads" and "we need to change course" to maintain leadership in a rapidly changing world. To make his case, Zhao explains * What's right with American education; * Why much of the criticism of schools in the United States has been misleading and misinformed; * Why China and other nations in Asia are actually reforming their systems to be more like their American counterparts; * How globalization and the "death of distance" are affecting jobs and everyday life; and * How the virtual world is transforming the economic and social landscape in ways far more profound than many people realize. Educators, policymakers, parents, and others interested in preparing students to be productive global citizens will gain a clear understanding of what kinds of knowledge and skills constitute "digital competence" and "global competence," and what schools can--and must--do to meet the challenges and opportunities brought about by globalization and technology.

The Epic of New York City-Edward Robb Ellis 2011-09-20 In swift, witty chapters that flawlessly capture the pace and character of New York City, acclaimed diarist Edward Robb Ellis presents his masterpiece: a thorough, and thoroughly readable, history of America's largest metropolis. Ellis narrates some of the most significant events of the past three hundred years and more—the Revolutionary and Civil Wars, Alexander Hamilton and Aaron Burr's fatal duel, the formation of the League of Nations, the Great Depression—from the perspective of the city that experienced, and influenced, them all. Throughout, he infuses his account with the strange and delightful anecdotes that a less charming tour guide might omit, from the story of the city's first, block-long subway to that of the blizzard of 1888 that turned Macy's into one big slumber party. Playful yet authoritative, comprehensive yet intimate, *The Epic of New York City* confirms the words of its own epigraph, spoken by Oswald Spengler: "World history is city history," particularly when that city is the Big Apple.

Strategy and the Fat Smoker-David Maister 2008-01-01 We often (or even usually) know what we should be doing in both our personal and professional life. We also know why we should be doing it and (often) how to do it. Real strategy lies not in figuring out what to do, but in devising ways to ensure that, compared to others, we actually do more of what everybody knows they should do. In 18 chapters, Maister explores the fat smoker syndrome and how individuals, managers, and organisations can overcome the temptations of the short-term and actually do what they already know is good for them.

Love in a Dead Language-Lee Siegel 2018-12-01 Love in a Dead Language is a love story, a translation of an Indian sex manual, an erotic farce, and a murder mystery rolled into one. Enticing the reader to follow both victims and celebrants of romantic love on their hypertextual voyage of folly and lust-through movie posters, upside-down pages, the Kamasutra: Game of Love board game, and even a proposed CD-ROM, Love in a Dead Language exposes the complicities between the carnal and the intellectual, the erotic and the exotic and, in the end, is an outrageous operatic portrayal of romantic love. "Rare is the book that makes one stop and wonder: Is this a literary masterpiece or do I need my head examined? But such is the alternately awe-inspiring and goofy thrall cast by Lee Siegel's Love in a Dead Language. . . . His work stands out as a book that is not simply a novel but its own genus of rollicking, narrative scholarship . . . it is just the cerebral aphrodisiac we need." —Carol Lloyd, Salon "Immensely clever and libidiously hilarious. . . . [T]he most astonishing thing about Love in a Dead Language is its ingenious construction. Insofar as any printed volume can lay claim to being a multimedia work, this book earns that distinction." —Paul di Filippo, Washington Post Book World "Now along comes Lee Siegel, who mixes a bit of Borges with some Nabokov and then adds an erotic gloss from the Kama Sutra to write Love in a Dead Language, a witty, bawdy, language-rich farce of academic life. . . . Whether it is post-modern or not, Love in a Dead Language is pulled off with such unhinged élan by Mr. Siegel that it is also plain good fun, a clever, literate satire in which almost everything is both travestied and, strangely, loved by its author." —Richard Bernstein, The New York Times "Love in a Dead Language deserves space on the short, high shelf of literary wonders." —Tom LeClair, New York Times Book Review 1999 New York Times Book Review Notable Book of the Year

Grimey Bitch-Karmel Divine 2015-03-13 We slowly pull up to another stop sign on a quiet street. I continue to rub my hands through her ponytail as I look over at her. "No, I will have this job and they gon' love me. I'll be the best Krystal they'll ever know." She looks over towards me not smiling as she says with trembling lips, "What...do you...mean?" With one shove of my hand I slam her face into the steering wheel, not once, or twice, or three times, but four or maybe five. I lose count as blood oozes out her nose, mouth and eyes. Her body stops shaking and sudden the car starts moving slowly forward as she takes her foot off of the brake. I reach over placing the car in park quickly. Removing my other hand from the back of her head, I look around on the quiet street, not seeing anyone in sight. Tossing my book bag into the backseat of her green Toyota, Camry, I lean over grabbing her, pulling her lifeless body over toward the passenger's seat. Opening the passenger's door I get out, placing her in the seat I just escape from. With her head slouched down, I close the door and run around to the driver's door. Opening the door, I look down seeing all her blood splashed on the steering wheel.
